

While the economy's contracting one name in property management is expanding

At Mainstay, we've redefined the role of a property management company, and we set the highest standards in everything we do. That's why, when others are streamlining, we're recruiting and expanding. Right now, we need people to whom we can offer great prospects, and who can help us emerge from the downturn even bigger and stronger. In return we'll give you what you need to take your career anywhere you want to go.

Property Managers

Home based covering Yorkshire and the North East Region

It's an exciting time to join us, as we've just taken the radical step of reducing each of our Property Managers' portfolios. Meaning you get to spend more time dealing with each of your clients, forging closer relationships and delivering higher standards of service than ever before. Ideally you'll bring a proven track record in residential property management, but we'll give you comprehensive training if you're an incisive commercial thinker and brilliant relationship manager who can make things happen every day.

**To apply for the above position please visit our website
